# Oman SATS News

## Oman SATS Football Team Competition

A good time to relax and socialize through Oman's favorite past time. Staff with the attendance of Management, organize a football competition during Ramadan that saw keen participation.

## Certification of Appreciation from Emirates

Oman SATS is proud to be a part of the success of Emirates. As a partner, we appreciate and are grateful for the recognition by one of our key partner customers.

## Welcoming the Ethiopian Airlines

Oman SATS welcoming the ET Management and crew on their first freighter operation to Muscat on 14 JUN 2024! This strengthens the cargo connectivity between MCT and Addis Ababa as well as provides access to the huge cargo potential of Africa. Congratulations to ET on your freighter operation to Muscat!

# Oman SATS News

## Heat Stress Campaign

Oman SATS organized a heat stress awareness campaign due to its interest in the health and safety of employees, especially during the summer period.

## Tarco Aviation

Oman SATS is thrilled to welcome Tarco Aviation, now operating twice a week from port of Sudan to Muscat. We are excited to support and collaborate with Tarco Aviation to enhance and expand our cargo transportation options.

## Fly Jinnah

With two weekly flights from Pakistan to Muscat, Oman SATS is delighted to welcome Fly Jinnah. To strengthen and increase our alternatives for freight shipping, we are thrilled to endorse and work with Fly Jinnah.

# Staff Engagement

**Gholamreza Hosseini**  
Cargo Instructor

I hold a master's degree in Educational Administration from Tehran University.

**Previous Experience:**

I began my career at Iran Air as a security agent. Through dedication and hard work, I was promoted to the role of cargo instructor. Since 2017, I have been fortunate to work with Oman SATS.

**Current Job:**

Currently, I am a Senior Officer Training, responsible for conducting cargo related training courses.

**Challenges and Experiences:**

I am passionate about training and embrace the challenges that come with it. Each challenge I overcome gives me a great sense of accomplishment and confidence. I firmly believe in the saying, "A challenge is an opportunity." In my previous job, one of my significant challenges was the English language barrier, as many of my students struggled to understand regulations in English. This required me to put in extra effort to translate documents, which ultimately equipped me with strong skills in reading and comprehending regulations. Another common challenge is time management. At times, I have struggled to complete tasks on time, but I strive to manage my workload to ensure error-free and smooth completion.

**Advice to Your Colleagues:**

Always remember to perform your tasks clean, quick, and complete. When you do your job to the best of your ability, you'll discover the real magic in my saying: "If you work hard, it will come back to you in many ways."

# Guest On Focus

I m Fahar Ahmed Al Balushi, 45 Years old. I have graduated with General Diploma Certificate.

### **Current Job:**

I have been working for Expeditors for almost 10 years as a customs clearance in air freight services.

### **Challenges During the lockdown:**

No job is without challenges and obstacles, like other companies operating at the airport, we were affected by the airport closure during the spread of the Corona virus Covid 19, as the rest of my colleagues were unable to come to work and I had to work alone in light of the large volume of shipments that I had to clear.

### **Future ambitions:**

I have great ambitions for my future, as I aspire to have a new experience and a new challenge by looking for a better job with a better return that lives up to my ambition and on which I can build all my dreams.

### **Oman SATS Services:**

The services provided by Oman SATS have developed significantly over the past five years, and have had a significant impact on the speed of clearing transactions. I am satisfied enough with these services and I think they are good. I also hope that the company will continue to develop them from time to time to keep pace with the global changes witnessed by the air freight sector.

## Civil Aviation Law

Sultanate of Oman  
Civil Aviation Authority

Issuing the  
Civil Aviation Law

Royal Decree  
No. (76/2019)

### **CAD 2-02**

## **Air Cargo including Dangerous Goods Safety Management Effective: 1 July 2024**

### **Article (27)**

It is prohibited to carry or transport arms, ammunition, explosives, or other flammable or dangerous substances on board civil aircraft without the approval of the Competent Authority. The Competent Authority shall set regulations governing the transfer and possession of such materials on board aircraft in the Territory of the Sultanate.

### **Article (68)**

Without prejudice to any severer penalty provided for in this Law or any other law, any person who violates the provisions of this Law or any Executive Regulations and other Civil Aviation Regulations or decisions issued thereunder shall be punished by imprisonment for a term not less than one (1) month and not exceeding one (1) year and a fine not less than two thousand (2,000) Omani Rials and not exceeding twenty thousand (20,000) Omani Rials, or either of the two penalties.
